## **MBA** in Digital Marketing and E-Commerce

Regulations and Syllabus
[For those who join the Course in July 2023 and after]
CHOICE BASED CREDIT SYSTEM

### **GENERAL INSTRUCTIONS AND REGULATIONS**

**MBA** in **Digital Marketing and E-Commerce** conducted by Alagappa University, Karaikudi, Tamil Nadu through its Collaborative Institution Agni College of Management and Design Excellence (ACME) at ACME Campus, Dindigul.

Applicable to all the candidates admitted from the academic year 2023 onwards.

### 1. Eligibility:

Candidate for admission to **MBA in Digital Marketing and E-Commerce** shall be required to have passed in any Bachelor Degree with 50% marks from recognized University/Institution.

### 2. For the Degree:

The candidates shall have subsequently undergone the prescribed programme of study in an institute for not less than two academic years comprising 4 semesters, passed the examinations prescribed and fulfill such conditions as have been prescribed thereof.

### 3. Admission:

Admission is based on the marks in the qualifying examination prescribed thereof.

### 4. Duration of the course:

The course shall extend over a period of two years under semester pattern accounting to four semesters.

### 5. Attendance:

Students must have earned 75% of attendance in each course for appearing for the examination.

Students who have earned 74.99% to 70% of attendance have to apply for condonation in the prescribed form with the prescribed fee.

Students who have earned 69.99% to 60% of attendance have to apply for condonation in the prescribed form with the prescribed fee along with the medical certificate / relevant documents.

Students who have below 60% of attendance are not eligible to appear for the examination. They shall re-do the semester(s) after completion of the program.

### 6. Examination:

Candidate must complete course duration to appear for the university examination. Examination will be conducted with concurrence of Controller of Examinations as per the Alagappa University regulations. University may send the representatives as the observer during examinations. University Examination will be held at the end of the each semester for duration of 3 hours for each subject. Certificate will be issued as per the AU regulations. Hall ticket will be issued to the students at the end of every semester after submitting "No Dues" certificate to the exam cell, under the aegis of Controller of Examinations of the AU.

### 7. Miscellaneous

- a. Every student should possess the prescribed text book for all the subjects, through-out the semester for their theory/lab classes.
- b. Every student would be issued an Identity card by the institute/university to identify his/her admission to the course.
- c. Every student shall access the library and internet (wi-fi) facilities provided for the self-development and career-development.
- d. Every student who successfully completes the course within the stipulated time period would be awarded the degree by the University.

### 8. Fee structure

Course fee shall be as prescribed by the University and 50% of the course fee should be disbursed to University. Special fees and other fees shall be as prescribed by the Institution and the fees structure must intimated to the University. Course fees should be only by Demand draft / NEFT and AU has right to revise the fees accordingly.

### **Semester pattern**

# Course Fee payment deadline Odd semester Fee must be paid before 30<sup>th</sup> October of the academic year Even semester Fee must be paid before 30<sup>th</sup> April of the academic year

### 9. Other Regulations:

Besides the above, the common regulation of the University shall also be applicable to this programme.

### **Course Outcome: MBA in Digital Marketing & E-commerce**

The course outcomes for the MBA in Digital Marketing & E-commerce typically focus on preparing students with a blend of business management skills and specialized knowledge in digital marketing and e-commerce. Here are some common course outcomes for such programs:

- 1. Digital Marketing Strategies:
  - Develop a deep understanding of digital marketing strategies, including SEO, SEM, social media marketing, content marketing, and email marketing.
  - Learn how to create comprehensive digital marketing plans aligned with business objectives.
- 2. E-commerce Management:
  - Gain expertise in managing various aspects of e-commerce, such as online store operations, payment gateways, inventory management, and customer relationship management in an online environment.
- 3. Consumer Behavior and Insights:
  - Analyze consumer behavior in the digital landscape.
  - Utilize data and analytics to derive insights into customer preferences and trends.
- 4. Social Media Management:
  - Understand the role of social media in marketing and e-commerce.
  - Learn to develop and implement effective social media strategies for brand building and customer engagement.
- 5. Digital Advertising and Analytics:
  - Explore digital advertising channels and platforms.
  - Master the use of analytics tools to measure and optimize digital marketing performance.
- 6. E-commerce Platforms and Technologies:
  - Familiarize yourself with various e-commerce platforms and technologies.

• Learn how to choose and implement the right technology stack for different business needs.

### 7. Mobile Marketing:

- Understand the nuances of mobile marketing, including app marketing and mobile advertising.
- Develop strategies for reaching and engaging mobile users.
- 8. Search Engine Optimization (SEO) and Search Engine Marketing (SEM):
  - Learn the principles of SEO to optimize website visibility in search engines.
  - Understand SEM practices, including paid advertising, to enhance online visibility.
- 9. Digital Branding and Reputation Management:
  - Explore strategies for building and managing a brand's online presence.
  - Learn techniques for reputation management in the digital space.

### 10. E-commerce Law and Ethics:

- Understand the legal and ethical considerations in e-commerce.
- Comply with regulations related to online transactions, data privacy, and intellectual property.

### 11. Entrepreneurship and Innovation:

- Foster an entrepreneurial mindset to identify and capitalize on digital marketing and e-commerce opportunities.
- Develop innovative solutions for addressing challenges in the digital landscape.

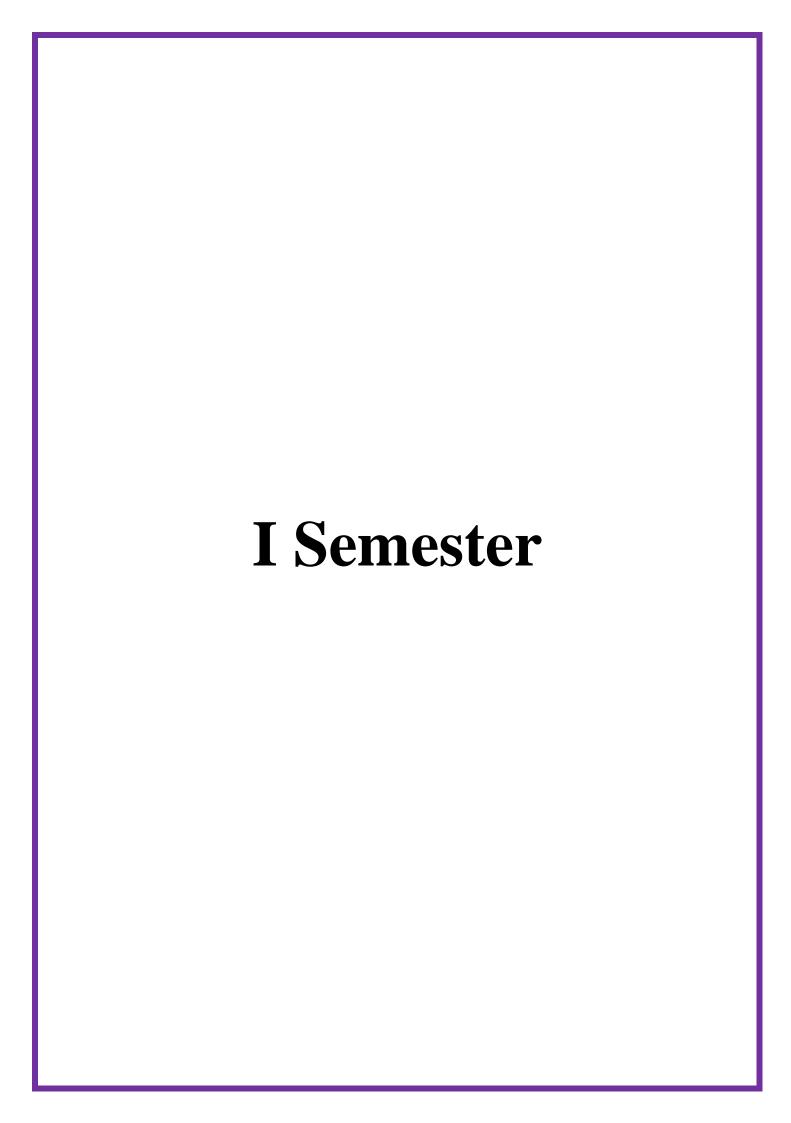

### 12. Project Management in Digital Marketing:

- Acquire project management skills specific to digital marketing initiatives.
- Plan, execute, and evaluate digital marketing campaigns.

These outcomes aim to equip students with a holistic understanding of business principles alongside specialized skills in digital marketing and e-commerce, preparing them for leadership roles in the rapidly evolving digital business landscape.

Unit - I	<ul> <li>Introduction to Excel</li> <li>Excel Introduction, Excel 2013</li> <li>Basic formulae: Entering and editing data, Creating and copying formulae, Creating functions easily.</li> <li>Formatting your work: Inserting/deleting rows/columns, Changing fonts, Colours and borders, Merging and aligning cells.</li> <li>Printing: Page break preview, Using page layout view, Headers and footers, Freezing print titles.</li> <li>Charts: Selecting data, Quick ways to create charts, Formatting your chart.</li> <li>Basic tables: Table styles, Using calculated columns, Header rows and total rows, Sorting and simple filtering.</li> <li>Using range names: Creating, sorting and filtering lists/tables of data</li> <li>Case Exercises/ Practical Assignments/Activities</li> </ul>								
Unit - II	<ul> <li>Advanced Excel 1</li> <li>Number formatting: Creating custom formats, The four parts of a format, Scaling numbers.</li> <li>Dates and times: How dates and times are stored, Useful date/time functions, Formatting dates and times.</li> <li>Conditional formatting: Creating/using cell rules, Data bars and colour sets, Styles and themes, How themes work, Using the default styles, Creating custom styles, Freezing windows.</li> <li>Validation and protection: Setting cell validation, Protecting cells/worksheets, Grouping and outlining, Cell comments.</li> <li>Range names and absolute references: Absolute references (\$ symbol), Fixing only the row/column, Creating range names, Labelling ranges automatically.</li> <li>IF and LOOKUP functions: The conditional (IF) function, Nested IFs, Lookup tables.</li> </ul> Case Exercises/ Practical Assignments/Activities								
Unit - III	and IN Linking and rei Basic rows, Advan Pivot	Excel II  ced lookup functions: Using MATCH to find various did to Access, Linking to web sites, Multiple won naming, The dangerous group mode, Summing a tables: Table styles, Using calculated column Sorting and simple filtering, Advanced Table ced filters, Creating table styles.  tables: Creating pivot tables, Swapping roing fields, Drill-down, Slicers, Pivot table	on, Linksheet across as, Hea es, Re	nking to of s, Copying worksheets ader rows emoving do olumns an	ther data, , moving and total aplicates, d pages,				

properties.

• Charts: Selecting data, Quick ways to create charts, Formatting your chart, Advanced charts, Creating chart templates, Combination charts, Picture charts, Custom chart types, Regression and trendlines, Sparklines, Creating sparklines, Changing chart types, Formatting sparklines, Consolidation, Using formulae, Using arrays, Using data consolidation, Using pivot tables, Recording Macros, Absolute/relative recording, Where macros are stored, Assigning macros to buttons.

### **Case Exercises/ Practical Assignments/Activities**

### **Unit - IV Excel Business Modelling**

- Array formulae: Creating array formulae, Editing and deleting array formulae, Strengths and weaknesses.
- Using SUMPRODUCT, Using dynamic ranges.
- Other functions: Text functions in Excel, Inspection functions, INFO and CELL.
- Scenarios: The scenario drop-down tool, What-if analysis, Creating a scenario report, Goal-seeking, Targeting a given value, Setting number of iterations.
- Data tables: One-way data tables, Two-way data tables.

### Case Exercises/ Practical Assignments/Activities

### Unit -V PowerPivot for Excel

- What PowerPivot is, Installing PowerPivot, The PowerPivot ribbon
- Connecting to tables: Connecting to SQL Server, Filtering rows and columns, Changing a table after import.
- Creating a data model: Hiding columns and tables, Renaming columns and tables.
- Relationships: Diagram view, Auto-detection, Manually creating, Pivot tables, Creating pivot tables, Sorting pivot tables, Formatting pivot tables, Slicers.
- Connecting to Excel: Creating Excel tables, Linking to Excel tables.
- Connecting to other data: Linking to Access, Pasting tables
- Calculated columns: Creating aggregator columns, IF and SWITCH, Using the BLANK function, Using RELATED to link tables.
- Measures: Measures vs. calculated columns, Creating aggregation measures, X suffix functions (eg SUMX).
- Filtering tables: The FILTER function, The CALCULATE function, ALL and ALLEXCEPT, Using the EARLIER function.
- Creating a calendar: Why use a calendar table?, Creating in Excel, Multiple date tables.
- Date calculations: Working days, Period to date
- Hierarchies: Creating a hierarchy, Using in pivot tables.
- Key Performance Indicators: Three parts of a KPI, Creating the measures needed, Creating a KPI, KPIs with absolute targets.

### **Case Exercises/ Practical Assignments/Activities**
